Notice of Network Change - Pensacola, Florida
Change in Outside Plant Network Facilities Along Bayou Blvd
Due to Florida Department of Transportation Road Project

Carrier

BellSouth Telecommunications, Inc.
675 West Peachtree Street NE
Atlanta, Georgia 30375

Date Changes are to Occur: November 1, 2002

Location of Changes: Pensacola, Florida -Along Bayou Blvd from 12th Avenue to Ironwood Road

Description of Change Planned: Copper feeder facilities are being replaced with fiber and Digital Loop Carrier (DLC) due to the Florida Department of Transportation road work project at I-110 and Fairfield Drive.

Description of Reasonably Foreseeable Impact of the Planned Change: After this work is completed, metallic facilities from the Belmont Central office to the affected area will no longer be available. Unbundled loops that are defined as compatible with DLC, e.g., those defined to transport POTS-grade service, will be transferred to the new DLC system.

It should be noted that, if a competitive carrier is providing DSL via a POTS-grade unbundled loop, BellSouth has no knowledge of the presence of DSL. The POTS-grade loop is considered to be compatible with DLC. In such a case, BellSouth has no basis to notify the carrier and there will be no means to continue the service.
